

# *the* AgSafe *way*

The mission of AgSafe is to provide health and safety education to the agricultural community. We have a “boots on the ground” approach to these topics, teaching both the “why” and “how” to protect workers in the field, as well as packing, processing and food manufacturing facilities.

Our success stems from this pragmatic philosophy ensuring safe, compliant practices become an integral component of a company’s culture and day-to-day operations. We also recognize and understand that changing culture and operations means changing behavior for owners, supervisors and workers alike.

## *Our Services Include:*

- ACTIVATE Conference and Cultiv8 Executive Forum
- Agricultural Safety and Human Resources Certificate Programs
- Supervisor Professional Skills Enrichment Series
- Community-Based Occupational Safety, Human Resources, Pesticide Safety, and Food Safety Trainings
- Individual Business Services: Program Development, Training, Voluntary Audits, and On-Going Support
- Membership Support Services
- Industry Outreach and Education

*“As a farmer, I do all that I can to give my workers a good life with a safe and comfortable place to work. AgSafe has helped me figure out the best way to do that.”*

**Joe Del Bosque**, Owner, Del Bosque Farms

*Past AgSafe Board Chairman*
